Sir:

TRANSMITTAL OF DRAWINGS

Applicants hereby submit five sheets of formal drawings, in duplicate, as replacements for the originally filed drawings. Applicants desire to have examination of the application proceed with these new drawings.

Figures 9 and 10 contain substantive changes, from the corresponding originally submitted figures. In the present versions, lower gel layer 16 has been oriented such that surrounding areas 24 will be on the bottom surfaces of the insoles. In addition, the orientation of spring walls 22 has been corrected to show that they extend between lower gel layer 16 and top cover 18. These changes are consistent with the other figures of the application, and with the specification, and applicants submit that no new matter is being added. Figures 1-8 do not contain substantive changes.

Please review these new drawing sheets and advise the undersigned promptly by telephone or facsimile if all formal requirements have not been met.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert A. Franks". The signature is fluid and cursive, with the first name "Robert" being more prominent and the last name "Franks" following in a similar style.
